

Connector Alternative

The Connector Alternative would rebuild Piers 62/63 as a similar structure in the same location but set away from the shoreline. It would also build a slender footbridge and deck connecting to the Seattle Aquarium. Waterfront Park and Pier 60 would be demolished as part of the Seattle Aquarium expansion. Habitat would be enhanced along the shoreline, except underneath the expanded Seattle Aquarium, including an accessible beach between the new pier and the northern edge of Pier 60.
